

Damask

We take our amazing Bavarian Suede leather and by way of a heat transfer system apply a strong paper finish on the surface. This leather has a beautiful soft heavy weight feel, and is available in an almost limitless number of colors and patterns. This is a durable product but the surface is susceptible to staining.

Specifications

Average Hide Size: 22 Square Feet

Configuration: Double Butt

Thickness: 1.3-1.5 mm

Finish: Semi Aniline

Resistance to Scratching: High Resistance

Flammability: NFPA 260 Pass, CAL 117 Pass

Anti-Soil Treatment: N/A

Care and Cleaning

Leather is a natural material and, if properly cared for, will maintain its beauty and usefulness for many years. Direct exposure to strong light can cause any leather color to fade, so always protect leather from direct sunlight and other intense light sources. It is also advised that leather products be kept away from radiators or other generators of heat. Periodic dusting and vacuuming is recommended for normal maintenance of leather. Should leather get marked or stained, please use only mild soap and water and first test a discrete area before treating the affected spot. Do not use Saddle Soap, cleaning solvents, oil, or abrasive cleaners.

** For Suede, Transfer, Hair on Hide and Customized non-standard leather – please contact the Demar Leather main office for additional information
